### About your hosts:

#### **JoAnn Miller**

For as long as I can remember I have had a “knowing”. I knew there was more to this life than presented itself and that I came here with a huge purpose. It took years to get clarity around all this, but now I have it. Ushering in Peace is my destiny, my purpose. I also know that we all came in with a big purpose. I can now assist others through my Intuitive gifts and my life experience to get more clarity around their destiny and this, in turn, leads to peace!

I am a Peace Prophetess, Intuitive and Author of the book, "Paradise, A Short Story about the World after the Shift." This book, written fourteen years ago now embraces the new codes of peace, love, joy and abundance and is a catalyst for many to “awaken” to why they are here.

I have been gifted with the Call to Peace and am the creator of a World Peace membership movement.

I believe that health, happiness, and inner peace are within everyone's reach. My personalized approach to yoga and wellness guides people through a process that helps them discover how to enhance their physical and emotional health and to truly live life to the fullest! I found yoga in a hospital waiting room in 1994. My father was undergoing spinal surgery and after I experienced only 10 minutes of yoga, I felt calm and peaceful. This was something very powerful! I began to practice yoga regularly and have since reaped the rewards of this amazing practice.

Yoga has helped me to survive and thrive through some of life's greatest challenges, including breast cancer and the passing of my husband. I truly enjoy guiding others as they work through the difficulties in their lives and onto their paths towards inner peace and wellness.

I'm a teacher with a degree in Education and 30 years teaching in the public schools. I have practiced yoga since that day in the hospital 25 years ago and have taught yoga for 15 years. I draw from my training in Parayoga, Ayurveda, and Anusara Yoga and am registered with the Yoga Alliance at the 500 hour level.

*"Each of us must learn to work not just for oneself, one's own family or nation, but for the benefit of all humankind. Universal responsibility is the key to human survival. It is the best foundation for world peace."*

Dalai Lama Tenzin Gyatso, Nobel Peace Prize 1989
